

A-2303-KT 30-512 MHz Amplifier Kit

Overview

The A-2303 is the latest amplifier in Ultralife's long and successful history of RF amplifier development.

You can get this amplifier, plus a range of newly designed accessories, together in one handy kit (A-2303-KT). The new accessories are designed to complement both mounted and dismantled operation and we will continue to grow the accessory line.

RF cabling, mounts, active cooling modules and antennas comprise the accessory line.
